The common school elocutionary contest will be held here Sept. 4. Teachers are requested to send in names of competitors.

Lancaster is proud of the great saddle horse, Preston, winner of a \$150 purse at Ilionville. His owner is W. H. Burton.

Sweeney Morgan shipped four car-loads of stock Saturday to Straus & Sterns and W. H. Crawford, Cincinnati dealers. James McCarley also shipped a load to Green & Embry, of the same place.

A very disastrous fire broke out here Sunday morning at 9:30, originating in W. A. Arnold's livery stable, presumably from a spark dropped by a careless smoker. The building adjoins the Garrard Hotel and in less than an hour it was evident that the hotelery would be burned. Heroic efforts were made to save the handsome structure but the small quantity of water available made all efforts futile. There were nine horses and 12 buggies burned, and including the building the loss is \$1,500 with insurance of \$1,000. The hotel was owned by a Lancaster company and was valued at \$30,000 with insurance of \$12,000. The furniture was removed from the building. The proprietor, T. H. Long, also sustained a severe loss, having \$600 worth of preserves destroyed. F. P. Fribble's drug store, Harriette & Shugars' shoe and clothing establishment and Henry Duncan's barber shop and the opera house were all in the hotel block and goods were much damaged by the removal. Fribble had insurance of \$2,500 and the other firm held enough to cover loss. Extine's small tailor shop was also burned. The fourth hotel that has been burned on the same site, the first in 1897. Two livery stables have gone up in smoke in less than five months and the Lancaster people are now thoroughly convinced of the need of water works, which are now under contract.

There were no Sunday schools nor preaching at any of the churches Sunday morning, ministers and laymen alike joining in the fight against the great conflagration.

Drs. J. B. Klonaird and W. S. Healey left Monday for Mammoth Cave.

The Misses Van Sickle, of Danville, and Jeanette Frost, of Lexington, are visiting Miss Lucy Gregory. Miss Georgia Delph, of Louisville, is the guest of Miss Besse Stevens. G. and Susan Anderson visited Mrs. Cyrus Daly at Bryantsville. Misses Mary, Helen and Martha Gill and brother, Lewis, and Virgil Klonaird were included in the Mammoth Cave party.

THE PEOPLE WANT TO BE HEARD

First Gun for Fair Election Methods.

At a meeting of the Lincoln County Democratic Committee, held at the request of its members, at Stanford, Ky., Aug. 2, 1902, the following resolution was unanimously adopted:

Inasmuch as the democrats of this county, with hardly an exception, desire that their nominations for Circuit Judge and Commonwealth's Attorney in this district be made by the primary election, provided by law, believing as they do that this is the fairest and best method of ascertaining the party's real preferences and the surest way of averting discord and scandal and of securing party success, and inasmuch as we heartily concur in this opinion and share in this desire,

RESOLVED, that we respectfully request and instruct that the Chairman of this Committee, in his capacity of member of the District Committee, do in this matter respect the unmistakable wishes of the people, of whom he and we are but the servants, and employ all fair and honorable efforts to have the committee, at its meeting at Danville on Aug. 9th, order a primary election for district nominations, and at as early a day as permissible under the law.

After the resolution had been adopted, the chairman, R. C. Warren, in response to it said, in substance, that he recognized in the fullest that all party power rested in the individual members of the party and that they had at all times the right to advise and even to instruct their agents and servants and that in the present instance he could and would most cheerfully pledge himself to be guided by the spirit of the resolution just adopted.

Prof. J. W. Davis Gets Excited Over Oil Business in Cumberland County.

MANHOLLOW, JULY 31.—A few days ago I came to Cumberland county to visit my father, who has been in feeble health for some time, and when I arrived I found all greatly excited over the oil boom, or as some express it, the "probability of Cumberland county being blown up at any time." Cumberland's oil fields have for some time been attracting the attention of oil men. In fact the first oil well in the United States was drilled near Burkesville about 1829. There have been a number of wells put down from time to time since then and some dry holes have been the result, while others have been wonderful gushers. The Greerburg Oil Co., of Greensburg, Pa., was drilling a well in Salt Lick Bend and about 1 o'clock Tuesday morning July 22 when they had reached the depth of 100 feet the oil and gas shot high in the air, forcing the drill nearly out of place. The oil quickly ignited from the engine and in less than five minutes the machinery and everything else within reach was destroyed. It has burned constantly since with a blaze some 50 or 60 feet high and at intervals of about 10 minutes the oil and gas is shot high into the air while the flames leap to the height of at least 150 feet. When it belches forth this great quantity of oil and gas and sends the flames high in the air, the heat becomes so intense that the people who have come miles to see the wonderful sight, have to stand back at least 50 yards from the well. Oil men from all parts of the country are gathering on the scene, tanks are being built and machinery put on the ground to put down other wells.

It has been consuming this great quantity of oil for about a week now and preparations are being made to blow it out soon. It is reported that prices offered for leases in this field are from \$10 to \$20 per acre and none can be had even at these figures. The owner of an adjoining farm was offered \$500 for a lease on enough land to bore one well and refused. I think a conservative estimate of the amount of oil shot forth every 10 minutes would be two or three barrels, which would make it at least 300 barrels a day. I will not continue this any further but one can hardly realize what a stampede it has caused unless they could see the great crowds of people traveling long distances day and night to see this wonderful volcano.

Yours,

J. W. DAVIS.

WENT TO VISIT HIS SISTER.

A J. Cottingham went to Washington County, Ark., to see his sister and while there was taken with dysentery and was very bad off. He decided to try Chamberlain's Colic, Cholera and Diarrhoea Remedy and was so much pleased with the prompt cure which it effected, that he wrote the manufacturers a letter in praise of their medicine. Mr. Cottingham resides at Lockland, Ark. This remedy is for sale by Craig & Hocker, Druggists, Stanford.

What undoubtedly is the largest known tree in the world has been discovered on the government reservation far up in the Sierras, near Fresno, Cal.

Six feet from the ground it took a line 164 feet 8 inches long to encircle the tree, making it over 51 feet in diameter.

Henry L. Shattuck of Shellsburg, Ia., was cured of a stomach trouble with which he had been afflicted for years, by four boxes of Chamberlain's Stomach and Liver Tablets. He had previously tried many other remedies and a number of physicians without relief. For sale by Craig & Hocker, Druggists, Stanford.

H. H. HENNINGER

Of Wayne County, is a candidate for State Treasurer, subject to the action of the Democratic party.

ROBERT HARDING,
of Danville, is a candidate for Circuit Judge, subject to the action of the Democratic party.

CHARLES A. HARDIN
of Mercer, is a candidate for Commonwealth's Attorney in this, the 18th judicial district, subject to the action of the Democratic party.

For Congress,
G. G. GILBERT
Of Shelby.

ATTENTION COMMITTEEMEN:

The members of the executive committee of the 13th Judicial District of Kentucky will convene at the courthouse in the city of Danville, Ky., Saturday, Aug. 9, 1902, at 10 o'clock A. M., for the purpose of determining the time and manner of nominating a Democratic candidate for circuit judge and Commonwealth's attorney for said district.

A WORD IN SEASON.

We publish, elsewhere in this issue, the action of the democratic committee for this county on last Saturday relative to the method of nominating candidates for judge and Commonwealth's attorney. We heartily approve of this action and of the end it was intended to accomplish. The chairmen of the committees for the four counties composing the judicial district constitute the district committee, whose duty it is to determine the time and manner of selecting the party nominees. These chairmen are but the creatures of their respective committees, being removable by them at their pleasure, and it seems only proper and right that they should receive and obey instructions from the bodies of which they are intended to be but the mouthpieces. Nor is it open to any doubt whatever that the democratic, not only of Lincoln, but of Garrard, Boyle and Mercer, the voters, the "boys in the trenches," prefer a primary election to a delegated convention and that they prefer it very greatly. We have taken some pains to ascertain by actual inquiry the party feeling on this subject, and we confidently aver that eight democrats out of ten in this district are of this mind. Nor are the reasons far to seek. A primary expresses the will of the entire party, not that of an inconsiderable faction only. It gives to each member of the party full opportunity, from 6 o'clock in the morning until 4 o'clock in the evening, to indicate his choice, and in the most convenient way, at his home voting place, instead of at the county courthouse. It gives to his vote the same potency, it protects it with the same privacy, and safeguards it with the same care and with the same legal sanctions as are thrown around it at a regular election. It is simple, it is perfectly fair to every candidate, it is attended, in a district of only four counties, with less expense even and less annoyance than any other method ever devised, and above all it is a certain and unmistakable declaration of the real choice of the people. In point of convenience, economy, certainty, fairness and freedom from opportunity or appearance of fraud, this method is immeasurably superior to the convention method. What rational and valid objections can there be to its adoption? There is indeed but one reason for a candidate, or his friends, opposing a popular vote, and, bluntly, it is this: they do not believe he is the choice of the people, but they do hope he may be declared the choice of an adroitly manipulated convention of county-town politicians.

On the other hand, the defects and the positive evils of the convention method are apparent on the slightest reflection, and are indeed well known to our people from bitter experience. The mass-meetings to appoint delegates are not held all day but at a fixed hour and for about five minutes. Those who are not present to the minute are disfranchised, and generally not more than one-tenth of the people are, or can be, present. Even this one-tenth have precious little to do in the proceedings. The resolutions have been prepared in some convenient law office beforehand, the delegates have already been carefully selected by the local boss, and the whole is railroaded through the honest country gentlemen who have happened to be had time to say "Mr. Chairman." In the convention thus composed, and dominated always by the few who are masters of parliamentary law while the mass of delegates are actually as helpless as if they were deaf and dumb and tied to their seats, the good of the party is never once thought of, corrupt combinations are easy, nay more, they are inevitable, and the outcome is a public scandal and bitter and disastrous party strife. Is not every word of this true? Will any candid man who has ever attended a convention, or who has

read of its doings in the newspapers, deny a single item of the indictment?

The gentlemen who constitute the district committee will at their meeting on next Saturday make their choice between these two methods, the one eminently fair and satisfactory, the other in its practical workings notoriously unfair and unsatisfactory. We are but a humble private in the ranks and shall not assume to dictate to the gentlemen who are wearing the shoulder straps. We are only saying out what eight democrats out of ten are thinking, and we are thus saying it, not in the interest of any individual or state, though we have our decided preference like others, and shall express it at the polls, if given the chance, but solely for the highest good of the party. Yet the committee will do well to realize that it represents more than 5,000 democratic voters, and not merely some half-dozen office-seekers, and it will do well also to inform itself of the wants and feelings of those voters and then take them into very serious account. Otherwise they may have occasion to realize that they have done exceedingly ill.

A COLORED person in the heat of an evangelistic address predicted that a tidal wave would sweep away Atlantic City. Many timid persons have become greatly alarmed, while the Negro elements almost panic stricken. The chief of the United States weather bureau, has received an appeal from the hotel proprietors, to make a prediction which will offset the blighting influence of the prophecy and he will do so. They say that their Negro help is leaving them, and the patrons, while disclaiming any fear of the prediction, are making their exit from the city, giving as an excuse that the service without the servants deprives the resort of all its attractions. Unless Chief Moore can allay the fears of the renters and Negroes, the season at Atlantic City will prove a losing game.

THE Beef Trust does not appear to stand in terror of the assault of Attorney General Knox. While preparations are on foot to lasso the offending combinations and drag it into court to make answer for its iniquitous exertions the packing magnates concerned have been quietly arranging for a more comprehensive and powerful merger of their interests, which will dominate domestic market, but also foreign markets. The one thing which apparently gives the trusts in this country the least apprehension is the danger of effective efforts for the suppression of the part of the Republican party.

THE decision of the Federal court of appeals that a saloon keeper must pay damages because a man to whom he had sold liquor was killed by being thrown from a vehicle while drunk may add considerably to the expenses of the saloon business. Many accidents happen to drunken men, and if the saloons must pay for them all it is a very serious matter for the owners.

THE last of the Lafayette flower girls of Morristown, N. J., is dead. She is Mrs. Mary L. Morrow, 30 years old, and she well remembered the great general's visit to Morristown in 1825. She was then 13. With 50 other girls she was selected to carry flowers for the festival and her companions made her their queen.

AMERICA is a growing country. More is being raised than ever and the man with a hoe is riding in an automobile. This year it is estimated we will raise 700,000,000 bushels of wheat, 2,500,000,000 bushels of corn and 12,000,000 bales of cotton. Such figures almost stagger the imagination.

THE Central Record's extra telling about the fearful Lancaster fire and causing good half tone cuts of the wrecked buildings was a piece of commendable enterprise by Editor Lancaster. We congratulate him on his fine effort.

JOHN S. HALEA will have smooth sailing for the democratic nomination for Congress in the Third at the convention at Bowling Green tomorrow. Every county except Simpson is in his district instructed for him.

POLITICAL.

Gum Shoe Hunter has returned to his mission at Guatemala.

Judge B. L. D. Guffey, republican nominee for appellate judge in the second district, has declined to meet his democratic opponent, Judge W. E. Settle, in joint debate.

William Jennings Bryan, in the course of an address at the Mountain Lake Park Chautauqua Association on "Problems of Government," denied that he would again seek to become the national standard-bearer of the democratic party.

Judge George H. Durand, who was nominated for governor by the democratic State convention in Detroit in the face of statements by "silver" democrats that he possibly would refuse the nomination, announces that he will make the race as the democratic candidate.

The republican Text Book has been issued by the republican Congressional committee. Concerning trusts, to which 20 pages are devoted, it makes the assertion: "The trusts have not occupied as great a place in the manufacturing industries as they have in public discussion."

THIS AND THAT.

Mrs. Scott Aldridge is dead at Parksville.

Henry Blankenship is dead in Boyle, aged 101 years.

The wife of Leon H. K. Hay, of Perryville, is dead.

John R. Lambert, circuit clerk of Henderson county, is dead.

Hon. A. O. Stanley, of Henderson, is nominated for Congress in the Second district by apparently several hundred majority.

In a church near Catlettsburg while services were in progress Sylvester Copley shot and killed John White. The tragedy was the outcome of an old grudge.

A Negro burglar, who had secured \$50 from the residence of Nathan Steel in Rockcastle, was shot and killed while escaping from the building Saturday night.

Rudolph Garlenburgh has sued R. Hoo & Co., for \$25,000 damages for being struck with a brick as Rabbi Joseph's funeral was passing the Hoo establishment.

CHURCH MATTERS.

The members of the Baptist church here are anxious for a pastor and they will have a meeting Sunday to decide about calling one.

Rev. A. S. Moffett preached an excellent sermon at the Presbyterian church Sunday morning. Few men are more generally liked in Stanford than this good preacher and his gentleman.

OIL—Miss Mary Varon is in receipt of a letter from Dr. E. S. Moss, of the Whitley Oil Co., stating that the well some eight miles from Miss Varon's lands in Whitley, is a good 50 barrel producer and that another well will be drilled at once in 500 feet of it. Some of the above company's stock is held here.

The following telegram was received by Miss Varon Saturday afternoon: "Just drilled in gusher on Payne farm."

THE AX

of toughest steel becomes dulled by constant use and must have a new edge if it is to do good work. Constant work dulls a man as it does an ax, makes him sluggish of body and dull of mind. He needs a tonic, something that will restore the keenness of mind and activity of body.

Dr. Pierce's Golden Medical Discovery puts new life into weak, worn-out, rundown men and women. It strengthens the weak stomach, purifies the blood, and effectively stimulates the liver. The whole body is built up with sound, solid flesh by the use of "Golden Medical Discovery."

It was given to my brother four months from January 1st, 1899, and commenced to take your medicine January 20th, 1899," writes Mrs. Poplar Blue, "I took eight bottles of Dr. Pierce's Golden Medical Discovery, four of "Pleasant Pellets," one of "Pleasant Pellets," and one bottle of Doctor Pierce's Compound Extract of Smart Root, Indigestion, obstru-

tion, constipation and hardening of the liver was my trouble. I am at this time able to do almost any kind of house work. Your medicine saved me from my grave. Thanks to you for the benefit my case was hopeless when I began taking your medicine."

REMEMBER

That so-called cheap insurance is the dearest thing on earth.

That a dollar saved in the premium may cost you a hundred in a loss.

That only solid cash, in sight, and experienced management guarantees sure indemnity.

That insurance in the Home, of New York, can be relied on.

Or to E. M. Hardin, Harrodsburg, or Oscar Rountree, Faulkner, Ky.

THE Mammoth Cave party got back at noon Saturday after a delightful trip to and through the big "hole in the ground."

I HAVE secured the services of a good dinner and plumber from Louisville and will be glad to do any and all work in that line. J. T. Jones. Shop opposite Baughman's mill.

HIGH-COLLAR dudess should take warning. A young Danish author named Madden fell down stairs in his house in Copenhagen recently and was choked to death by his high collar.

I WILL sell at public auction county court day, Monday, Aug. 11, at 11 o'clock, the toll gate house and lot of about one acre on Lancaster pike. A good well and stable. Lot can be divided into three building sites. Nancy VanDeevere.

DOING WELL - Little Geo Gooch, who was accidentally shot by his brother a week ago, is rapidly improving and will soon feel no ill effects from his wound. His father, J. M. Gooch, is about the happiest man in the county since his son recovered from his dangerous condition.

NOTICE - It has been the aim of the Central Ky. Real Estate Exchange to secure options on that class of property where the owner is exceedingly anxious to sell or is forced to sell and thereby secure a low price on same and hold out some inducement to buyers. Read their list carefully and see the bargains offered.

JOHNSON - Charlie Johnson, son of Mr. W. H. Johnson, died at his home in the East End Saturday morning of throat trouble, aged about 23. He had been ill a long time and was fully prepared for the end. The remains were interred in Buffalo cemetery Sunday morning after services by Rev. William Sprinkles.

BORN Judge M. C. Saufley and Hon. Robert Hardling made short talks at Harrodsburg yesterday announcing their candidacy. It was not at all in the nature of a discussion, but each made pleasant efforts. Judge Saufley strongly advocated a primary, but Mr. Hardling didn't say how he wanted the nomination made.

HURT - Miss Isabel Ross, who is a stepdaughter of Mr. H. H. Cash, of Turnerville, was badly hurt just as she started to the Hustonville fair Friday morning. Her horse scared and turned sharply, threw her to the ground with much force. She sustained a deep cut over one of her eyes and was otherwise severely injured.

LINCOLN county watermelon raisers might profit by reading the following sent from Harrodsburg: "John Bradshaw owns two acres of fine watermelons and to protect the crop from predatory persons he has erected a tent in the center of the patch and will with wife his wife live in it till the watermelon season is over." Keeping house in the middle of a watermelon patch with the thermometer registering 100 or so would be more than the average old 'omen would stand and if Mr. Bradshaw's better half don't grow tired of it before the season closes she will prove herself to be as patient and long-suffering as some of the good women of old.

AFTER spending a few hours at the Hustonville fair Friday, Editor Walton, of the Lexington Democrat, went home and wrote the following: A visit to the Hustonville fair yesterday disclosed a splendid exhibition, a large crowd of beautiful women and many men and a lavish hospitality in keeping with the reputation of God's elect who dwell upon that fertile part of Lincoln county. A free dinner in which big, yellow chicken legs and the other good things of the season combined, was enjoyed by thousands and still there were taken 12 baskets full. Hustonville always has the best fair of its size in the State and every one who attends goes away feeling that it was good to have been there.

SHELTON SAUFLEY - One at least of the young men who left Stanford to make fame and fortune in Lexington is succeeding admirably - Mr. Shelton M. Saufley, who has been with the Daily Democrat almost since its inception. Mr. Saufley is one of the best all around men for newspaper work in Lexington. He is a No. 1 reporter, a fine linotype operator, a good book-keeper, a more than average solicitor and a fair collector. Whenever the proprietor needs a man for any of these places, he has only to call on him and night or day he is ever ready to do more than his duty.

JUDGE W. L. BROWN, of London, was here Saturday returning from Casey, where he made several speeches for Judge Boreing. He says Mr. Boreing will win his race easily and that Laurel county will give him a majority of 600. We shall see what we shall see.

MR. JOHN B. MERSHON leaves this week for Somerset to accept a position in the machine shops of the Q. & C. Besides being a splendid citizen, Mr. Mershon is one of the finest mechanics in the State and we congratulate the railroad company in securing his services.

THE SAME OLD STORY.

The Hustonville Fair a Glittering Success as Usual.

Another Hustonville fair is a memory and while everybody is glad that it was a successful exhibition, many regret that it is a thing of the past. The Hustonville fair is sort of an annual outing to many and being one of that number, we are indeed sorry that it is all over. Good crowds attended the fair each day and witnessed a magnificent display of stock. In fact the pick of the country was on hand and the animal that wore the blue had to be a good one. The DAILY INTERIOR JOURNAL each day told the fair news as it happened so that there is little left for the regular edition to add. We desire to congratulate all who had a hand in managing the splendid fair as well as the good people of the West End generally for their unbounded hospitality and genuine good cheer dispensed. FAIR NOTES.

Mortal man never saw two finer rigs than those in the fancy turnout ring.

Pocket book lost on fair grounds. Contained small amount. Leave with Miles Block Bogle.

Miss Crenshaw's exhibition of horseback riding was one of the enjoyable features that was not on the program.

Misses Amanda Stone, of Liberty, Nora Sheppard, of Somerset, and Anna Eubanks, of Columbia, were the judges in the fancy turnout ring.

Morris Sutton, a Stanford colored boy, found a pocket book on the grounds which proved to be the property of Miss Mary Lynn Stock, of Boyle. Such honesty on the part of Sutton is de-

serving of reward.

Carroll Bailey won the rich roadster ring over a field of nine with R. E. Lee Sims' gelding.

He is four years old, a good individual and has speed to spare.

Mr. Sims has a great animal in this son of Peace.

The colts by Dignity Dare were blue winners almost every time one of them was shown. Mr. D. S. Carpenter certainly has a great sire in his splendid son of Chester Dare and he has every right to be proud of him.

FOR SALE - Five Southdown bucks.
